SUMMARY OF QUALIFICATIONS

Computer Science undergraduate with a strong focus on mastering core React concepts, including component-based architecture, hooks, state management, and reusable UI patterns. Experienced in building responsive, maintainable interfaces using modern front-end frameworks with close attention to performance and usability. Possesses a solid understanding of Data Structures and Algorithms along with core computer science fundamentals. A collaborative and adaptable team player with strong problem-solving and communication skills, demonstrating consistency, teamwork, and discipline through active involvement in sports.

EDUCATION

College of Engineering, Aranmula <i>Bachelor of Technology in Computer Science and Engineering</i> CGPA: 8.44	Pathanamthitta, Kerala, India Expected June 2026
--	---

TECHNICAL SKILLS

Programming Languages: C,Java,Kotlin,Python
Web Development: JavaScript,React.js
Database & Cloud: Firebase, MongoDB,MySQL
Version Control: Git, GitHub
Languages: English, Malayalam (Native)

RELEVANT EXPERIENCE

PACE LAB <i>Full Stack Web Development Intern</i> ■ Completed an intensive MERN stack internship focused on building scalable web interfaces and backend services. ■ Developed end-to-end data flow between frontend components and RESTful APIs, strengthening full-stack architecture skills.	Ernakulam,Kerala,India June 2025
Solvitute Solutions Pvt. Ltd. <i>AI Voice Data Collection Intern (Online)</i> ■ Contributed 2.5+ hours of structured multilingual conversational audio for AI speech dataset development. ■ Ensured compliance with audio quality, environment, and topic-distribution standards during recording sessions. ■ Collaborated within a two-member team to streamline workflow and enhance recording efficiency.	Uttar Pradesh,India October 2025

PROJECT EXPERIENCE

Foody Zone Web App <i>Live Demo:</i> https://foody-zones.netlify.app/ ■ Built a responsive food ordering web application with dynamic data fetching through RESTful APIs. ■ Deployed the React frontend on Netlify and the backend on Render.	Personal Project
Contact List CRUD Web App ■ Developed a contact management application enabling users to add, edit, search, and delete contacts with real-time database synchronization using Firebase. ■ Integrated React Portals and Formik to create interactive modals, form validation, and seamless user experience across CRUD operations.	Personal Project
Personal AI Chatbot ■ Built an AI-powered conversational chatbot capable of generating real-time streamed responses using the Groq API and Llama 3.3 language model. ■ Implemented secure API key management using dotenv along with conversational prompt engineering for natural user interaction.	Personal Project
HealthMate ■ Developed a health monitoring platform that enables users to manage health-related information through responsive front-end interfaces and backend APIs. ■ Implemented full-stack functionality using React.js, Node.js, Express.js, and MongoDB for efficient data storage and retrieval.	Academic Project
Sign Language Translator ■ Built a real-time translation tool designed to improve communication accessibility for hearing-impaired and speech-impaired users. ■ Enhanced usability through intuitive UI flows and optimized processing logic for smoother translation interaction.	Academic Project
